New Blueprints

We published several new blueprints:

- •Developing and Tuning Applications on UltraSPARC T1 Chip Multithreading Systems
- •Web Consolidation on the Sun Fire T1000 using Solaris Containers
- •Consolidating the Sun Store onto Sun Fire T2000 Servers
- •Creating a Customized Boot CD/DVD for the Solaris Operating System for x86 Platforms
- •Using iSCSI Multipathing in the Solaris 10 Operating System
