## **756 vs. 662**

The winner in the category "Most fix aircraft orders" is: Airbus. They were able to gather 756 orders whereas Boeing just got 662. But these numbers show another interesting trend: The boom seems to be over. This years order combined are just a little bit higher as the numbers of each of them last year (Boeing was the winner last year with 1.412 orders. Airbus had 1.342)

Hi Joerg,  
kannst Du die Quelle angeben?  
Würde mich sehr interessieren.  
Danke und noch nen schoenen Abend.
