c0t0d0s0.org at the Linuxtag 2009 in Berlin

I've just looked at the Linuxtag website and my tutorial made it to it. So i'm glad to announce at my website: At the Linuxtag 2009 in Berlin i will hold a one-day version of my "Less known Solaris Features - Live"-Tutorial i've already did at the GUUG FFG 2009. The tutorial will take place on June, 27th (that is a Saturday) in Berlin (Fairground at the Funkturm).

Cool thing, then I'm finally able to listen to a tutorial by you!
Looking forward to june!

Oh my... just saw the price for one of the tutorials
Nothing for students...
Prob we will meet at the sun booth...
