1300 subscribers

Wow. A large leap forward. 1300 subscribers. This is especially interesting as my subscriber count decreased to 1100 after i had to migrate from feedburner.com to feedburner.google.com. The counting mechanism was changed, so the step is larger than the number suggest when you compare it to the last published subscriber number.

And still no coffee...

Anonymous on Apr 21 2009, 17:43

I think i will drive to you just for the coffee ... otherwise we still talking about the coffee in years

That's the Oracle effect!

Anonymous on Apr 22 2009, 11:23

Think so, too
