### **FrOSCon 2009 - first day**

I'm just back at the FH Bonn-Rhein-Sieg, the location of the FrOSCon 2009. Had some interesting conversations yesterday about ZFS, about Solaris, about Sun and sometimes questions about a certain other company. But as i had a really important meeting, which i wasn't allowed to miss at any cost in Bonn yesterday early evening, i left the location at 15:00pm. So ... the second starts in a few minutes ... i will write a longer report about the event on my trip back to Hamburg.

Danke für den sehr informativen und unterhaltenden Talk am zweiten Tag, hat wirklich sehr viel Spaß gemacht und war ein krönender Abschluss!

Grüße aus Bonn!
