### **Talk at the seventh Hadoop Get Together in Berlin**

This was my talk at the third Hadoop Get Together in Berlin last December. Before you listen at it - i know that my English is horrible ... so i want to apologize for the (mis-)use of the English language at this occasion:

Hadoop Jörg Möllenkamp from Isabel Drost on Vimeo.

Posted by Joerg Moellenkamp in English at 21:12

Scary! I was looking for some distributed file system friday, and found that Hadoop looked very interesting, and then you put this out three days later

Actually this was the third talk at the seventh Hadoop Get Together - added quotes to the blog post title to make it a little clearer.
