Press Release: Sun Microsystems' Solaris 10 Engineers Receive InfoWorld 2005 Innovators Award

Six Sun Microsystems, Inc. (Nasdaq: SUNW) engineers were honored last week with an InfoWorld Innovators award for their work on the Solaris 10 Operating System. The award, presented to Bryan Cantrill, Stephen Hahn, Adam Leventhal, Cynthia McGuire, Andrew Rudoff and Michael Shapiro, highlighted Sun as the leading source of innovation in the enterprise Unix market.
